## Things to check before you start

\*Check that the tray has been installed correctly and that it is level, tiled down onto and sealed to the manufacturer's guidelines.

### \*check

\*Ensure the product is fitted to a non-porous surface ie. tiled and that the shower area is water proof. Check that the wall surface is flat.

\*Unpack and check the product is complete and undamaged.

\*Please check you are happy with the product before installing it.

\*Fixings are supplied for solid walls only. Ensure that the correct fixings are used for the wall type.  
-if in doubt seek professional advice

\*Ensure the area is clean, dry and dust free.

\*Read the instructions in full.

\*Have the correct tools available, see "Tools Required"

\*Please dispose of all packaging with due regard to the environment.

If you need further help please contact your local depot [www.ctb.co.uk](http://www.ctb.co.uk)

## Safety

---

\*For domestic use only.

\*Handle all glass with care - support on cardboard to avoid risk of breakage.

\*When drilling walls check first for hidden pipes and electric cables.

\*All glass is toughened –it cannot be reworked or replaced by ordinary glass.

\*Use safety eyewear when drilling the wall.

\*Use safety eyewear when handling glass.

\***DO NOT** drill through glass.

\*Keep all small parts away from children.

\*Plastic bags are dangerous. To avoid danger of suffocation or choking all plastic bags should be kept away from babies and children, and disposed of correctly after use.

\*Care and Maintenance

If you need further help please contact your local depot [www.ctb.co.uk](http://www.ctb.co.uk)

## Level

1. Check shower tray is level, flat and 550 radius
2. Check walls are vertical and within shower enclosure tolerance, 20mm/side.
3. Check shower tray and walls water tight .

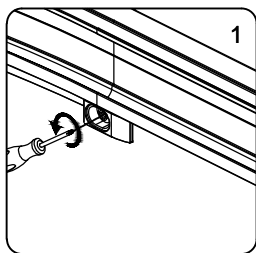

If you need further help please contact your local depot [www.ctb.co.uk](http://www.ctb.co.uk)

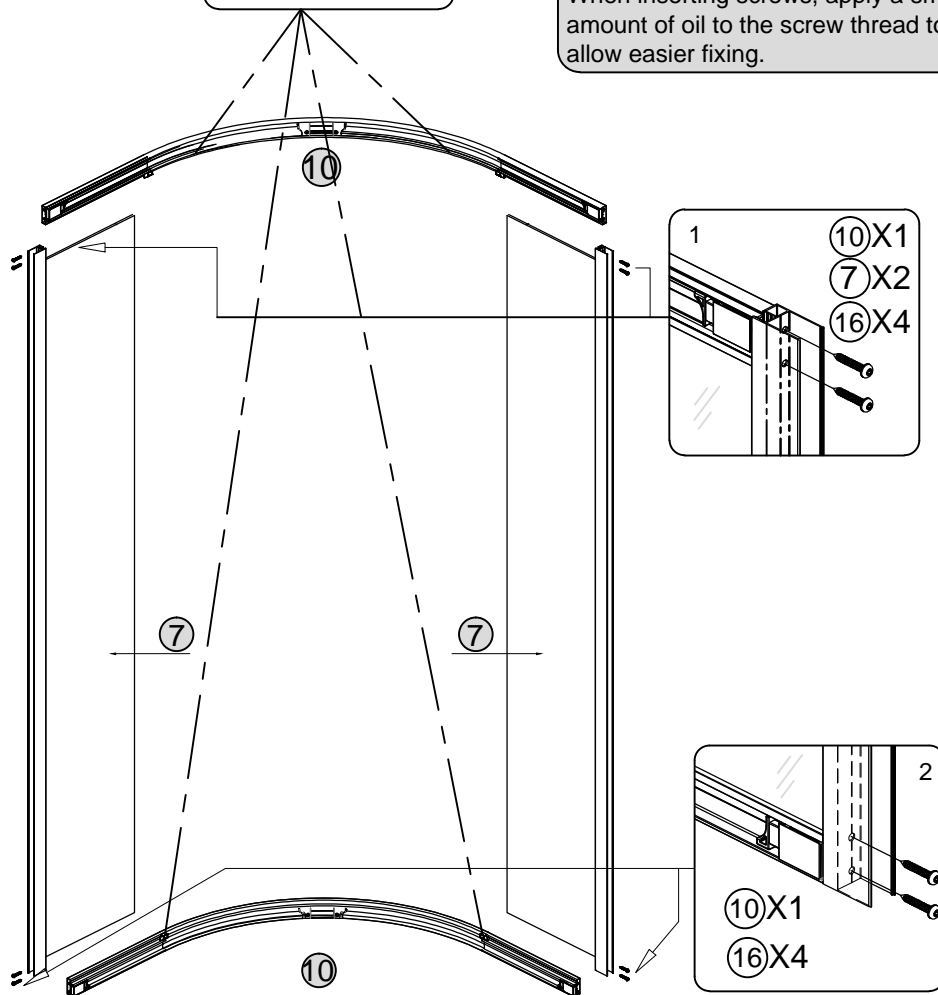

## Installation Quadrant Fit

Loosen screws on top and bottom rails, fit fixed panel on the same side as dampers. After assembly of frame retighten screws on rails taking care not to over tighten.

Inside View

Tip:  
When inserting screws, apply a small amount of oil to the screw thread to allow easier fixing.

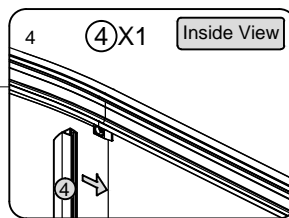

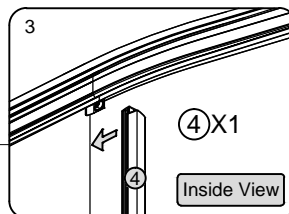

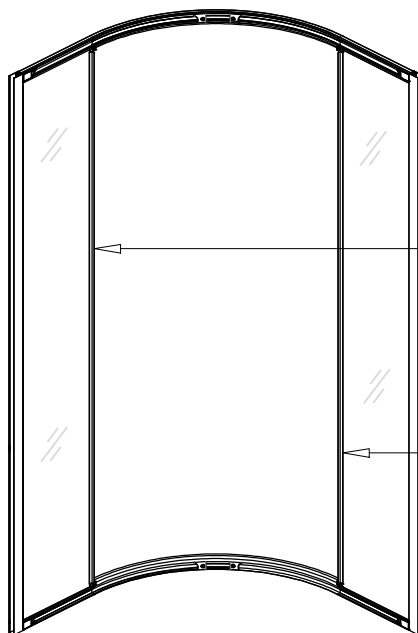

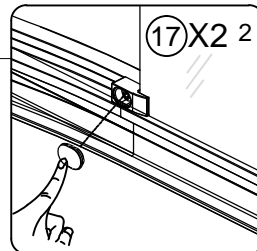

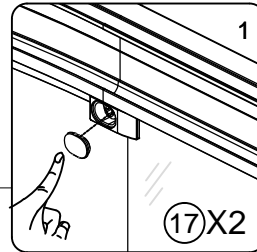

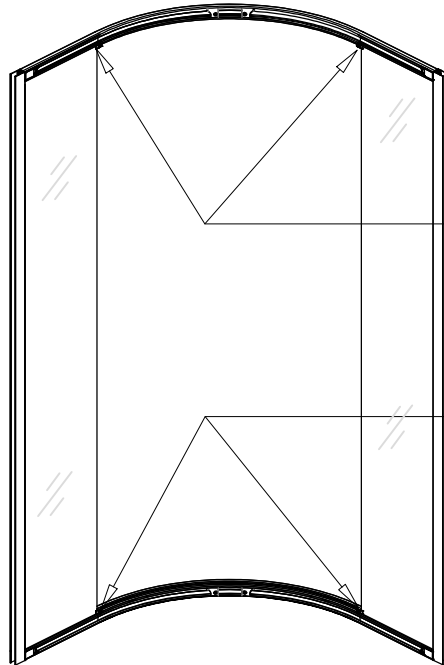

If you need further help please contact your local depot [www.ctb.co.uk](http://www.ctb.co.uk)

## Installation Quadrant Fit

Caution  
Not over tighten screw

Push fixed panel seal (short)  
on to fixed panel start at  
bottom and work upwards

**!** Note:  
Two different seal lengths supplied.  
Use shorter of the two seal lengths  
for fixed panel.

If you need further help please contact your local depot [www.ctb.co.uk](http://www.ctb.co.uk)

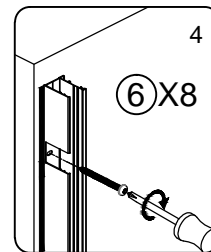

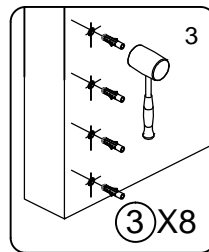

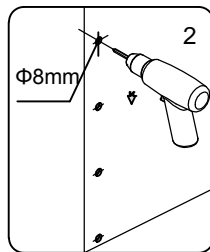

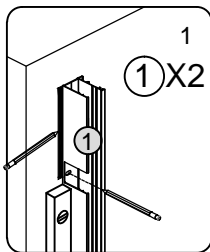

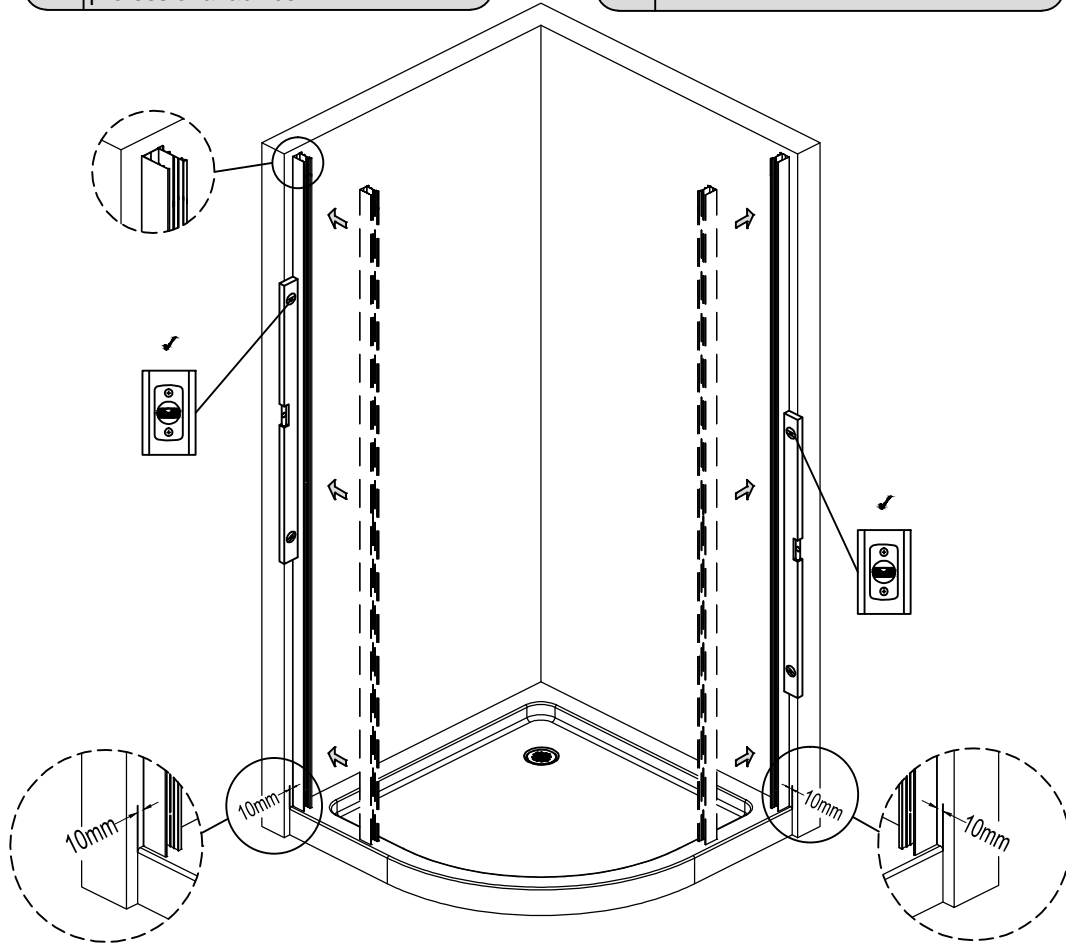

## Installation Quadrant Fit

**\*** Tip:  
When drilling tiles, apply masking tape to surface to stop drill bit slipping.

**!** Wall plugs supplied are for solid walls only. Ensure correct wall plug for wall type is used. If in doubt seek professional advice.

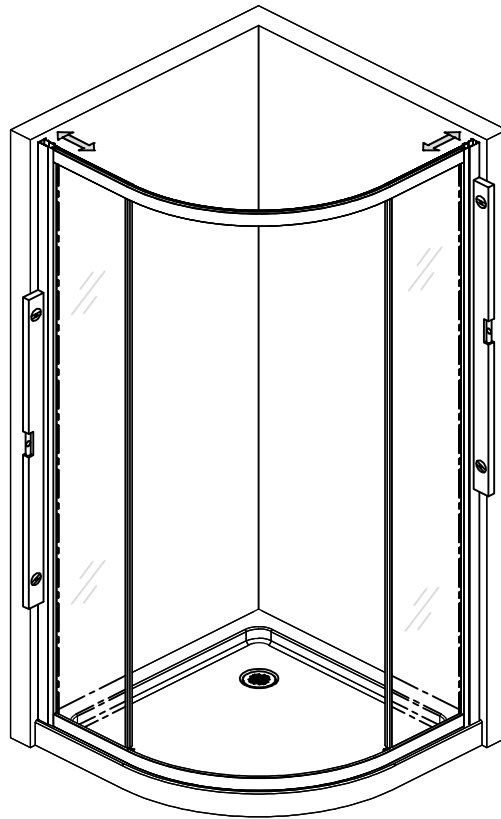

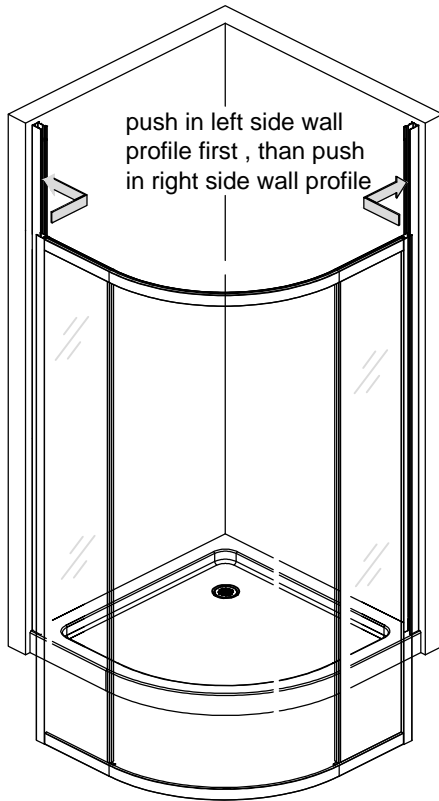

**!** Position wall channel on wall. Ensure channel is vertically level and does not overhang the shower tray.

If you need further help please contact your local depot [www.ctb.co.uk](http://www.ctb.co.uk)

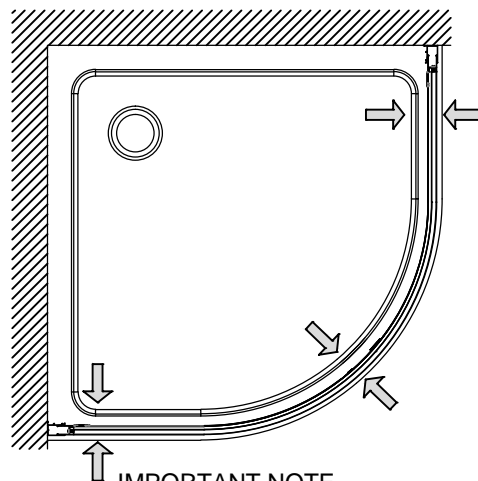

## Installation Quadrant Fit

Tip:  
When positioning frame, hold frame and position bottom corners first.

Plan View

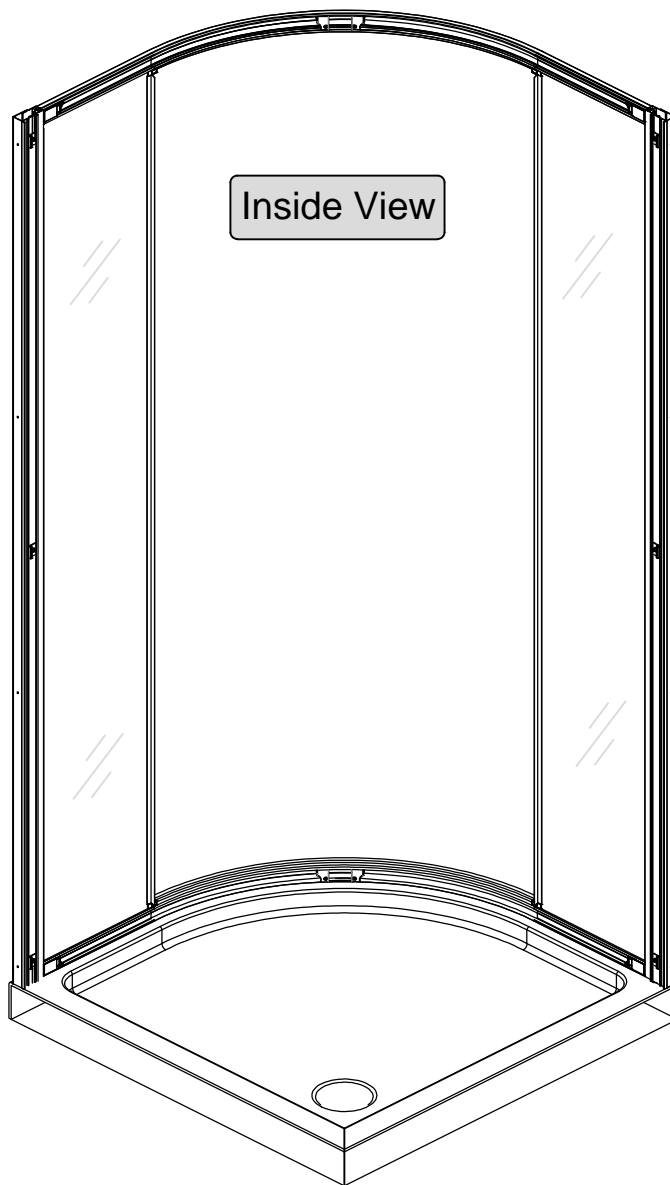

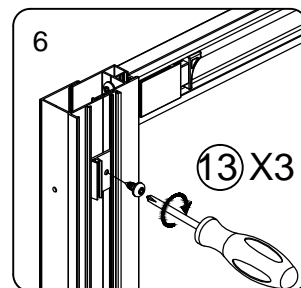

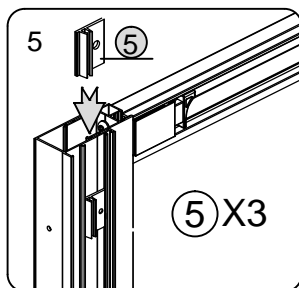

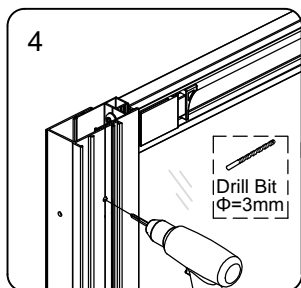

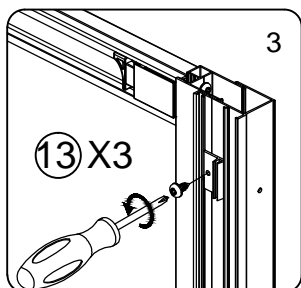

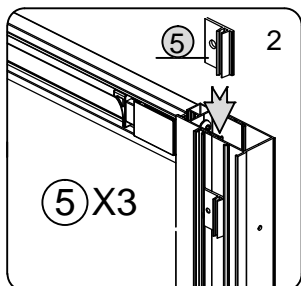

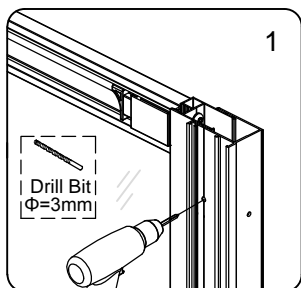

**IMPORTANT NOTE**  
Ensure fit of enclosure matches tray.  
DO NOT push frame fully into channel, allow a suitable gap to ensure adjustment and fixing.

If you need further help please contact your local depot [www.ctb.co.uk](http://www.ctb.co.uk)

## Installation Quadrant Fit

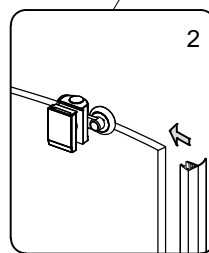

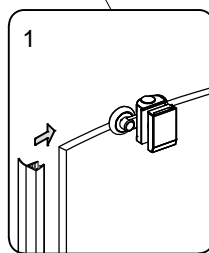

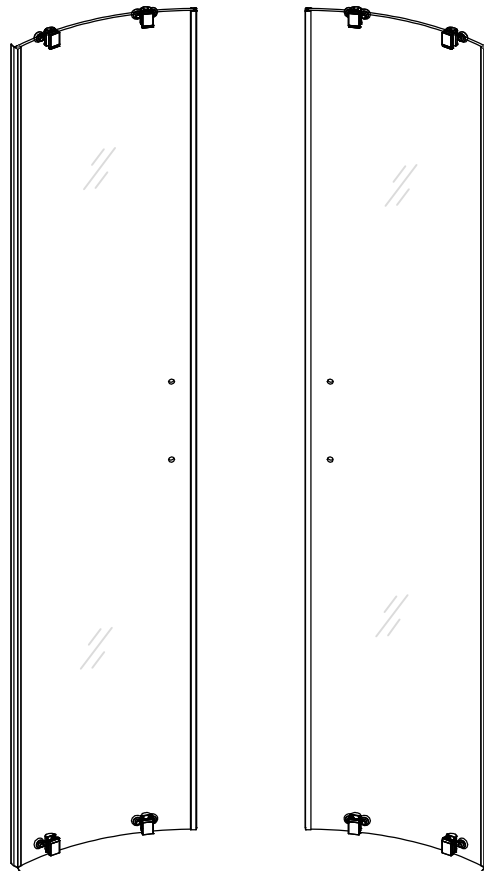

If you need further help please contact your local depot [www.ctb.co.uk](http://www.ctb.co.uk)
