## Tools required

## Things to check before you start

\*Check that the wet floor / tray has been installed correctly and that it is level, tiled down onto and sealed to the manufacturer's guidelines.

### \*check

\*Ensure the product is fitted to a non-porous surface ie. tiled and that the shower area is water proof. Check that the wall surface is flat.

\*Unpack and check the product is complete and undamaged.

\*Please check you are happy with the product before installing it.

\*Fixings are supplied for solid walls only. Ensure that the correct fixings are used for the wall type.  
–if in doubt seek professional advice

\*Ensure the area is clean, dry and dust free.

\*Read the instructions in full.

\*Have the correct tools available, see "Tools Required"

\*Please dispose of all packaging with due regard to the environment.

If you need further help please contact your local depot [www.ctb.co.uk](http://www.ctb.co.uk)

## Safety

---

\*For domestic use only.

\*Handle all glass with care - support on cardboard to avoid risk of breakage.

\*When drilling walls check first for hidden pipes and electric cables.

\*All glass is toughened –it cannot be reworked or replaced by ordinary glass.

\*Use safety eyewear when drilling the wall.

\*Use safety eyewear when handling glass.

\***DO NOT** drill through glass.

\*Keep all small parts away from children.

\*Plastic bags are dangerous. To avoid danger of suffocation or choking all plastic bags should be kept away from babies and children, and disposed of correctly after use.

\*Care and Maintenance
