Tools required

Things to check before you start

*Check that the bath has been installed correctly and that it is level, tiled down onto and sealed to the manufacturer's guidelines.

***check**

*Ensure the product is fitted to a non-porous surface ie. tiled and that the shower area is water proof. Check that the wall surface is flat.

*Unpack and check the product is complete and undamaged.

*Please check you are happy with the product before installing it.

*Fixings are supplied for solid walls only. Ensure that the correct fixings are used for the wall type.
–if in doubt seek professional advice

*Ensure the area is clean, dry and dust free.

*Read the instructions in full.

*Have the correct tools available, see "Tools Required"

*Please dispose of all packaging with due regard to the environment.
